ADITYA YADAV

Lucknow India ♦ +91-7007302928 ♦ adityadyadav9792@gmail.com ♦ LinkedIn: linkedin.com/in/aditya-yadav-7920312a0

PROFESSIONAL SUMMARY

Driven and detail-oriented technology enthusiast with practical experience in AI applications, computer vision, and real-time data systems. Proficient in Python, OpenCV, and prompt engineering, with a strong foundation in developing intelligent solutions such as face recognition attendance systems and automated dashboards. Demonstrates a proactive approach to learning, problem-solving, and leveraging technology to create impactful, user-focused solutions.

SKILLS

- **Tech Stack:** Python, OpenCV, Git, SQL, AWS (EC2, S3), Docker (basic), GitHub Actions
- **Tools:** Canva, LM notebook, MS Excel, WordPress
- **Data & AI:** Machine Learning, Data Analysis, NLP (in progress), Statistical Modeling
- **Soft Skills:** Public Speaking, Team Coordination, Event Management, Leadership

CERTIFICATIONS

AI & Data Science Program (In Progress), Intellipaat x IIT Indore

- Topics: Deep Learning, NLP, Time Series, TensorFlow/Keras

EXPERIENCE

AI and Prompt Engineering Intern, 06/2025 - 07/2025

Vault of Code – Remote

- I learned that effective prompt design is key to getting accurate and creative AI outputs. I understood how different techniques like zero-shot, few-shot, and chain-of-thought prompting impact results. I also saw how structured and creative prompts can guide AI to generate practical recipes or solve complex problems. Overall, I gained hands-on experience in using prompts to control the AI's behavior more effectively.

Student Coordinator, 02/2025 - 02/2025

International Conference on Recent Advances in Applied Science & Humanities in Evolution of Engineering (RAASHEE-2025) – Lucknow, India

- Led coordination efforts for the international conference by managing student volunteers, facilitating academic sessions, and ensuring smooth communication between speakers, delegates, and organizers.
- Played a key role in event planning, logistics, and tech support, enhancing the interdisciplinary exchange of ideas in applied sciences and humanities.

EDUCATION

Bachelor of Technology (B.Tech): CSE - Artificial Intelligence, Expected in 01/2027

University of Lucknow

- Relevant Coursework:
- DSA
- DBMS
- NLP
- Machine Learning
- GPA: 8.3/10

ACHIEVEMENTS

- Led a 200+ participant event at RAASHEE 2025.
- Student Lead for Sports Council, fostering community engagement and collaboration.
- Built and deployed a real-time AI project from scratch.

EXPERIENCE & LEADERSHIP

- Student Lead, Sports Council - Faculty of Engineering & Technology
  - Coordinated intra-college sports fests, enhancing participation and engagement.
  - Developed cross-team communication and planning abilities.
- Coordinator - RAASHEE 2025 International Conference
  - Managed logistics for 200+ participants, gaining experience in large-scale event planning and stakeholder collaboration.
